ADVANCEMENT ASSN MEETING

A Large Crowd at the Banquet and Business Meeting.

The regular meeting of the Grand Rapids Advancement Association occurred at the Elks hall on Thursday evening. It was a banquet night and there was a goodly number in attendance, eighty-one sitting down at the tables.

The banquet on Thursday evening was served by the ladies of the Congregational Aid Society and it was all that could be desired. Turkey was the foundation of the feast, with numerous trimmings to make out a first class spread. The guests were prompt in their attendance and by a few minutes after 7 o'clock every body had been seated and served.

After the inner man had been satisfied the regular meeting of the association was called to order, with Vice-President Burnell in the chair. President Oberbeck being absent.

T. A. Taylor, chairman of the committee on public improvements made a report telling of the organization of a building and loan association by his committee.

E. P. Arpin, chairman of the committee on industries and industrial sites, made a report which was listened to with great interest by those present. Pursuant to a scheme outlined at a former meeting, Mr. Arpin had drafted the constitution of an investment company, which, it is intended will be for the purpose of buying land, and so arranging it that it can either be given or sold to any company that may wish to locate an industry here. The new concern will be made a stock company, with shares at fifty dollars each. The sentiment of the meeting seemed to be strongly in favor of the new scheme, and it was voted to lend the enterprise the hearty support of the association. It is thought that by this means to create a fund that will be sufficient to accomplish some results. Mr. Arpin also had with him a map of some property that could be secured for the purpose named, and the price of which was low enough so that a factory could be located there without taking all the money that the company might happen to possess.

Mr. Arpin also mentioned the fact that there had been a physician here looking over the territory in this vicinity with a view to establishing a hospital or sanitarium here for the treatment of tuberculosis. He also mentioned that, while he had not at first been in favor of having the institution located here, after he had been informed of the manner in which such institutions were conducted, he had come to the conclusion that it would be a benefit to the town. This immediately started a discussion that promised to last indefinitely, as those present seemed to be about equally divided on the subject. Dr. Hougren spoke on the matter, and gave it as his opinion that the establishment of such an institution would be of great value to the city and community.

While any danger to the inhabitants of this region would not amount to anything, as the sanitarium would be a state institution, and those who were in it would have to conform strictly to the rules of the place, which would be such that there would be no danger to any person on the outside.

Others spoke against the establishment of the institution here, not only on account of the danger from a sanitary standpoint, but also on account of the effect it would have on outsiders who might contemplate locating in this city. After considerable discussion on both sides it was decided to leave the matter to a committee to decide whether the association should encourage the location of such an institution in this city provided the state legislature should see fit to appropriate the money for it. In view of the fact that such an institution may not be established at all, it may be possible that those present were worrying themselves unnecessarily in the matter.

Mr. E. A. Upham, who has acted in the capacity of secretary since the organization of the association, tendered his resignation, to take effect immediately. Mr. Upham's resignation was accepted, and a vote of thanks tendered him for the efficient and conscientious manner in which he has performed the duties of the office. C. E. Boles was elected to fill the vacancy.

A New Circuit.

The commission appointed by the Supreme court to redistrict the judicial circuits of the state met recently at the hotel Pfister in Milwaukee and decided to recommend to the legislature the creation of a new circuit to consist of the counties of Fond du Lac, Green Lake, Marinette and Columbia, to be known as the Eighteenth district. It was also decided to recommend the taking of Waukesha county from the Seventh circuit, and to add it to the new circuit.

At the same time Judge Charles M. Webb of this city, and attached to the Third circuit, presided over by Judge George W. Burnell at Oshkosh. Another recommendation will be made to take Trempealeau county from the Sixth circuit, and add it to the Seventh circuit, of which Judge James O'Neil of Neillsville has charge. A recommendation will be made to add another judge to the Milwaukee county circuit, to be chosen at an election in the spring of 1906. As the Superior court in this circuit will become a circuit court next spring there will be five circuit judges here in 1906, providing the legislature passes the bill.

With these changes it is believed that the work of the judges throughout the state will be equalized as much as possible.

BREWERY NEARLY COMPLETE.

Plant of the Grand Rapids Brewing Co. Soon to Start.

The new brewery of the Grand Rapids Brewing company will soon be in operation, and most of the machinery only needs the finishing touches to make it ready to run. Steam has been kept up on the boiler for over a week past and the engines have been operated at different times to see that everything is in working order.

There is every indication that it will be possible to start the institution within a few days, as all of the machinery has been placed in position, and after being cleaned up will be ready for operation.

The ice machine has been in operation for several days, and works in good shape. By the use of this the storage cellars are kept at an even temperature of about 25 degrees, whether winter or summer. The engine operating the ice machine is of a Corliss type and forty-five horse power. Besides this there is another engine for operating the other machinery of the plant.

John Silbany will be the brewer at the institution. Mr. Silbany has been on the ground since the commencement of the plant and has personally supervised the placing of the machinery so as to have everything to suit him. He has had many years experience in the brewing business both in the old country and in America, and is considered a first class man in every respect. As all of the appliances in the plant are of the latest approved pattern and style, it is expected that the brewery will turn out a grade of goods that will not be excelled by any similar institution.

As it requires three months to produce beer ready for the market from the time it is started, it will be some time yet before the product will be before the people.

Justice Services.

On Thursday, Dec. 1st, solemn jubilee services were held at St. Lawrence's Catholic church in this city. The pastor, Rev. J. M. Koryak, was assisted by Rev. Fathers Jos. Feldman of Nekoosa, Julius Chylinski of Poudre, Frank Nowak of Plainville, Mich., Klossowski of Plover, Theo. Wojak of Cassel, Stan. Kubiszewski of Fancher, and Jno. Pocielnik of Revent.

The services opened at 5 o'clock a. m. by a Holy Mass celebrated by the Rev. Pastor of the congregation. Through the entire day adoration of the Blessed Sacrament took place.

At ten o'clock solemn high mass was celebrated by Rev. Jos. Feldman assisted by Rev. J. Chylinski as deacon, Rev. Fr. Nowak as sub-deacon and Rev. M. Klossowski as master of ceremonies. Rev. J. Pocielnik delivered a sermon at this mass on "Devotion of the Blessed Virgin Mary."

The conclusion of the services took place in the evening with an English sermon by Rev. J. Chylinski on "Christian Duties Toward God," and a Polish sermon by Rev. Theo. Wojak on "The Sacrifice of Mass." Then followed a procession in honor of the Blessed Sacrament, and benediction.

The devotions were well attended, many making use of this opportunity of gaining the jubilee indulgence.

Boon on at Arpin.

Platteville Times. "I am more than pleased with the outlook for our colony at Arpin, in Wood county, this state," says A. W. Rich.

"The news that we had secured land for a small colony there has had the effect of stimulating the village of Arpin, and I find that there is already quite a boom on in that place. One of the immediate needs of Arpin is a good general store, and I am assured that some enterprising man with a little capital can do well by establishing such a store in the place. Other needs will be felt as the improved conditions become better understood."

Mr. Rich states that ten of the eighteen families he intends locating on the lands recently purchased near Arpin will be sent there at once, and that the other eight will follow within a week or two.

STRUCK BY THE TRAIN.

Boy Has Narrow Escape from Death Near Vesper.

Fred Johnson, the 16 year old son of Dan Johnson, who resides about three miles from Vesper, and is well known in this city, was struck by the afternoon passenger train going north on the Northwestern road on Wednesday, and had his skull badly fractured and sustained other injuries. The accident occurred at what is known as the White crossing, which is only a short distance from Joseph. White's place.

Johnson was driving to Vesper for a load of lumber and did not see the train until the danger whistle was blown, and then became frightened and attempted to get across the track ahead of the train. The engine struck the wagon in the center, and young Johnson, who was wrapped up in a large fur overcoat and a bed quilt, was thrown onto the pilot of the engine, where he was found when the train was stopped some 200 yards from the crossing. His body rested within three inches of the track and was held up by the quilt which had become caught in the front work of the engine, only for this he would have been run over and ground to pieces. When taken from the pilot of the engine it was found that the boy had received a bad scalp wound, the scalp being laid bare for several inches and as it was thought that the skull had been fractured, Doctor Mahoney had him placed in the baggage car and telephoned to Marshfield to have a physician meet the train there on its arrival. The injured boy was removed to St. Joseph's hospital, where on examination it was found that the top and back of the skull had been fractured, the bones pressing down on the brain and causing the young man much pain. There were no other bones broken or injuries received, except that he may be hurt internally as he complained of pains in the side.

The train was in charge of Conductor Mahoney of Janesville, and Engineer Mayberry was at the throttle and did his utmost to warn the boy of his danger, and said the boy would have had plenty of time to have stopped his team after the warning whistle, but instead he began to whip his horses in an attempt to get across the track. The team ran away and was not caught for several hours afterward. The wagon sent was found on the pilot of the engine with the boy and was not even broken.

People who saw the wagon after it was struck by the locomotive say that it was a total wreck, the only part of it left being one wheel, and the wonder was that young Johnson was not killed outright.

Later reports from Marshfield are to the effect that the boy is getting along nicely and there is every indication that he will get well.

Farmers who are in the habit of making the crossing at White's place say it is a very bad one, owing to the fact that the road crosses the track on a slant. They say that it often appears as if it were possible to get across the track before the train reached the crossing, when if the attempt is made they discover that they were mistaken.

Entertained Her Friends. Miss Aurelia Bandolina entertained about forty of her friends at a dancing party Friday evening and all enjoyed a very pleasant evening. The new store building was used as a dance hall, and there was an abundance of room for even the large crowd that was in attendance. Light refreshments were served and dancing was kept up until one o'clock. When the guests departed for home they were unanimous in pronouncing Miss Bandolina first class entertainer.

Not a Bad Idea. At the Advancement Association last Thursday evening it was suggested that a humane society be organized in this city. No action was taken on the matter, but it is undoubtedly a fact that an organization of this sort would be a benefit to the city. There are many cases where a humane society could do good work, and one should be organized.

Wood is 25 years of age and has a wife and two children. For a short time he kept a store on South Third street in this city. At times he became quite violent at the head of enterprises of considerable importance. At one time he gathered a theatrical troupe at Wausau and later engaged in the full time business on a large scale in Grand Rapids. Of late he has been engaged that he had charge of the shipping of potatoes over the Central road. When a box he was struck on the head by falling on a furniture factory in which he was working and quite severely hurt. This is believed to be the cause of his present condition.

Rev. Emanuel Daniel of Syria, a priest of some order with an unpronounceable name, was in the city yesterday soliciting aid from our business men for the purpose of building a church some where or other. His reverence seemed to be armed with the proper credentials, all right, part of which were written English and the rest in Chinese or something similar. We may be mistaken in the matter but we opine that cleanliness is next to godliness where the Rev. Emanuel hails from.

—For Sale—Coal and wood. For prices and particular inquiry of Bossett Bros. & Ebert, phone 54.

Travel Class Banquet.
The members of the Travel Class met at the home of Dr. and Mrs. O. T. Hongon on Saturday evening. The class has been studying Scotland this year and on this account their gala night was designated as the "gathering of the clans." The clans were all there, but owing to the chilliness of the atmosphere, or some other reason, none of them appeared in highland costume. A sumptuous banquet was served during the fore part of the evening, after which the tables were arranged and the guests engaged in progressive whist. Colcord's orchestra furnished music for the occasion and a very pleasant evening was spent.

PITTSVILLE.

Rev. Mauck has received a call from
the Lutheran church at Grand Rapids
and is thinking quite seriously of go-
ing to that city. Rev. Mauck has
been here for nine years and is uni-
versally liked. His congregation will
not let him go without a hard struggle
but this will be a promotion for him
and is well deserved. Should he de-
cide to go for sure we will have more
to say of his work here.

We are reliably informed that the
St. Paul Railroad Co. will extend its
line north from Pittsville the coming
spring. This will be good news to
all and if it proves true it will help
our burr wonderfully.

tons of hay for the Pubst Brewing Co.

A Costly Mistake.

Blunders are sometimes very expen-
sive. Occasionally life itself is the
price of a mistake, but you'll never be
worse if you take Dr. King's New Life
Pill for dyspepsia, dizziness, head-
ache, liver or bowels. They are gentle
yet thorough. 25c at Daily Drug &

Running like mad down the street
